Cantilever storage rack

D-7-3000-D

UMETA®

GUSTOS

Cantilever storage rack

Efficient storage and handling of long materials such as profiles, pipes, tubes, solid bars and more. Each individual layer can be separately extended and provides easy loading and unloading from the top. For example by using an overhead crane.

Using a forklift is not necessary anymore creating a safer and more ergonomic working environment. Moreover, the storing system is space-saving which leads to a significant reduction of storage cost.

DUMETA® delivers 36 models with capacities up to 3.000kg per layer.

Various designs according to customer requirements are also possible.

Features

- Individual swinging arms provide easy access to each extended layer
- 36 different standard models
- Suitable for material of 3m or 6m length, even up to 24m is possible
- Storage capacity per layer 750kg, 1.000kg, 2.000kg or 3.000kg
- Large storage capacity per m² floor area
- Safe and ergonomic
- Perfect overview of stored material

GUSTOS

Cantilever storage rack

Optional

- Storage trays for storage of short pieces or flexible materials
- Several kind of dividers
- Levelling feet for floor irregularities
- Telescopic arm (with locking) to simplify the movement of heavy layers (max. loading)
