CLOSED WELD HEADS

CWH

Our CWH closed welding heads are the slimmest in orbital welding, covering diameters from 3 to 114.3 mm (0.12" to 4.5"). The spring steel clamping system (CWH 21 & CWH 38) offers easy handling, cost efficiency, and reusability. The CWH 21 can also be converted into a scroll block for precise, centered welding.

For larger applications, the water-cooled CWH 53, CWH 76, and CWH 115 feature patented spring-loaded clamping jaws for secure, high-quality welds.

HIGHLIGHT

- Water- or gas cooled (CWH-13, CWH-21 and CWH-38 gas cooled only)
- Available in tachogenerator-version (AMI, Orbitalum, Magnatech, ESAB, ...)
- Novel, springing clamp-system (trademark)
- 8 m long hose, longer on demand
- Longlife aluminium collets (CWH-21, CWH-38, CWH-53, CWH -76 and CWH-115)
- Interchangeable cassettes for the CWH-13
- Accessories: Stabile suitcase with first-class foam material-insert

Closed Weld Head

CWH5H/CWH10H

The Orbitalservice CWH5H and CWH10H have been designed to respond to the highest demands in the high purity welding industries. The heavy duty integrated water cooling makes this head unique on the market.

Made for the high purity welders

These orbital weld heads are specially designed for small tube diameters from 3.0 mm to 25.4 mm (0.118" - 1") and wall thicknesses up to 2.0 mm (0.079") like those used in production systems from the semi-conductor industry. These heads are with a removable clamping bloc which can be very easily positioned around the tubes to be welded in inline assembly at the welding site or prefab production of panels in the workshop.

HD Water cooling

The integrated heavy duty water cooling protects the closed head from overheating. Furthermore, it reduces the cooling time and increases the production.

DIMENSIONS

Clamping Cassette with
electrode distance gage
included

Possibility to weld different tube
configurations (Tube/Tube – Tube/elbow union
– Fitting/Fitting - ...)

PRODUCT DETAILS

Tube OD min-max	3 mm - 15,88 mm 1/8" - 5/8"
Electrode diameter	1,6 mm 0.006" - 1/16"
Weight	1,5 kg / 3.31 lb w/o hose package 5,8 kg / 12.79 lb with hose package
Hose package length	9,5 m 31.17 ft
