

Overview

FX-HVS 300

HV systems pivotable

Product number 1103 0300

Description

FX-HVS HV systems allow the user to swivel the load suspended on the crane by 90°.

By simply locking it to the system, the load can change position from horizontal to vertical at any time. The FX-HVS 300 was specially designed for handling packaging steel straps, including Signode straps.
