Vacuum lifters

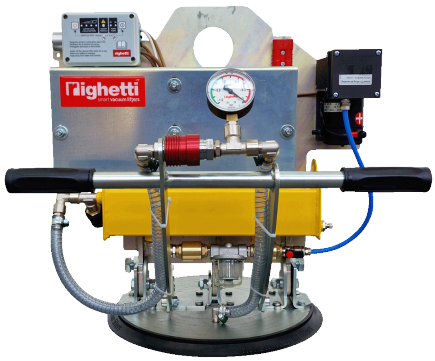

righetti smart vacuum lifters — Vacuum lifters SPECIALISTS

Kg max 300 | AIR

Series

F1

Vacuum lifters of the F1 series are models with a single suction pad, the dimensions of which determine the maximum lifting capacity of the suction lifter (200 or 300 kg).

Depending on the client's requirements, it is possible to choose between pneumatic, electric or battery power.

These single-pad suction cups are **ideal for handling small sheets and cutouts.**

- Horizontal lifting
- 1 suction pad
- Safety devices
- Lifting capacity up to 300 kg
- Electric, pneumatic or battery power supply

CE

made in ITALY

Technical features

Application	Small sheet metal, cutouts, ferrous and non-ferrous materials
Lifting capacity	200kg o 300kg (depending on the suction pad's size)
Suction pads	Nr. 1 suction pad
Load movement	Horizontal lifting
Power supply	To choose: electric, pneumatic or battery
Vacuum system	Vacuum circuit, complete with vacuum circuit and non-return valve
Own weight	Depend on the model - starting from 20kg
Control	Manual sliding valve Load release via dual action command for higher safety
Technical features	Acoustic and visual alarm with battery backup, independently powered Vacuum control unit (only on battery-operated models) Vacuum gauge with coloured scale Battery charger for alarm Vacuum filter and purge tap
