PORTABLE INDUCTION UNIT

HANDUCTOR

Ref. 090484 (8 Inductors)

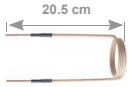

GYS INVEST IN THE FUTURE

The HANDUCTOR is specially designed to heat up and loosen all types of mechanical components, to make it easier to remove them: rusty bolts, seized nuts, corroded screws, and much more. Compact, lightweight and designed for easy mobility, it is ideal for use in the automotive, agricultural, industrial maintenance, metalworking and locksmithing sectors.

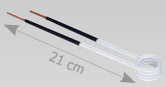

TECHNICAL SPECIFICATIONS

- **Power:** 1100 W.
- **Ultra-portable:** It weighs just 2 kg, offering complete freedom of movement.
- The **inductor coils are very easy to exchange** using a quick-release locking system.
- **LED light** provides illumination to the working area while the unit is heating up.
- **Non-slip handl**e for a secure and comfortable grip.
- **Instant, flameless heating** of a precisely targeted area, meaning you can work close to cables, pipes or other heat-sensitive components without having to remove them first.
- **Easy to use:** Select and fit the inductor coil, plug in the unit, and you're ready to go.
